A SYNOPSIS OF SLAVERY: USA, FL, Marion County - Slavery is not unique to the USA. But, it developed a peculiar and pernicious form here. The Preamble to the Constitution in envisioning "a more perfect union" had 4 objectives. The second is: to insure domestic tranquility. Slavery here undermined this hope. To understand the lack of domestic tranquility today, it is helpful to examine how the effects of slavery continues to be cancerous in our body politic.						
<b>RECONSTRUCTION – 1863-1877</b>	Coyne	Mon, 1/28/19	1	10:00 AM	12:00 PM	\$5.00
The Civil War remains the singular most devastating event in the history of our Republic. More persons were killed in this one war than in all military events from the Revolutionary War to current military engagements cumulatively. The unprecedented loss of lives and destruction to property was not from without as within. How to put Humpty Dumpty back together again? The formidable challenge during the period of Reconstruction brought out the best and worst in Americans. The U.S. government imposed a de-Nazification program on Germany after WWII enabling it to achieve incredible healing in a relatively short time. Imagine if there had been a de-Confederization program after the Civil War how much closer we would be to "a more perfect Union?" The best efforts of Reconstruction, amid an incredibly challenging scenario, sought heroically to heal the wound of slavery and a civil war. Reconstruction remains a work in progress.

<b>Law School for Seniors: Torts</b>	Kelly	Thu, 4/4/19	5	10:00 AM	12:00 PM	\$25.00
--------------------------------------	-------	----------------	---	-------------	-------------	---------

In our law school for seniors we have studied criminal law, civil law and procedure, now we will be looking at the most interesting part of law called torts. This may be a new term. Tort means twisted and is applied in law to a party who has a grievance against another party and is seeking relief. Torts are a part of everyday life: car accidents, medical malpractice, harmful products, and anything that one may consider a private wrong. I think you will find these sessions the most interesting and practical part of law.
