

Senior Learners, Inc.
Course Catalog for the 2019-Summer Term

Health and Better Living

TITLE	INSTRUCTOR	FIRST	WEEKS	STARTS	ENDS	FEE
Dealing with Toxic People	Preston	Thu, 5/9/19	6	1:30 PM	3:30 PM	\$30.00
<p>You will learn techniques to help you deal with toxic, unfriendly, negative naysayers, who have nothing good to say about anything or anyone. You can survive these encounters through skillful communication by: identifying the characteristics of difficult people and the content behind their feelings. Using an action plan you can turn their negatives into positives. Role playing will be a fun part of the class, too.</p>						
Be in the Know About Your Landscape Maintenance	DuMond	Thu, 5/9/19	1	10:00 AM	12:00 PM	\$5.00
<p>Often, landscape maintenance individuals are not aware of the proper time and methods of pruning plant material, lawn mowing procedures, and flowering schedule of your landscape. This class will discuss proper scheduling of pruning azaleas, camellias and flowering plants used in both residential and commercial landscapes. Pruning, fertilizing and care of Florida ground covers, hedges, and ornamental trees will also be addressed. Individual questions and landscape concerns will be encouraged throughout the discussion.</p>						
The Skeptic's Guide to Health, Medicine and the Media 1	Putzeys	Mon, 6/3/19	4	10:00 AM	12:00 PM	\$20.00
<p>This course is all about asking the right questions. The questions that will take you past the headlines and beyond the way health news is typically reported. Headlines can be deceiving. Sometimes journalists get stories completely wrong. The course will cover controversial topics like hormone replacement, concussions, opioid addiction and many others. It will also help you to develop a tool kit to intelligently scrutinize Internet stories and media coverage of health and medical news without falling to the hype and hysteria. This course and the next will be based on the first twelve lectures by Dr Roy Benaroch in The Great Courses: The Skeptic's Guide to Health, Medicine and the Media.</p>						
Seven Surprising Travel Events	Kelly	Wed, 6/19/19	1	10:00 AM	12:00 PM	\$5.00
<p>Many of us are involved in traveling. We read the brochures and study Rick Steves or other books. We have interesting expectations and have determined that is the place we should go. But when we get there, we find it is not really so hot, but other places along the way were terrific and were a great surprise. I have been surprised often in my visits to 85 countries. I will share with you seven of my most surprising encounters - places that we thought would be just so-so, but ended up as unforgettable. You may have some of these experiences too. Bring them with you and we can all share and go to exotic places.</p>						
Memphis Blues	Kelly	Wed, 6/26/19	1	10:00 AM	12:00 PM	\$5.00
<p>Bring the old guitar and harmonica and come as we look at this unique town that is location of Beale Street and the Birth of the Blues. When you go to Graceland, the home of Elvis, you will gather a new appreciation of the King. When Nashville build the Parthenon, Memphis built a replica of the pyramid like the ones in Egypt. So many interesting sites we will visit. One of my favorites is St. Jude Medical Center, which is tackling the most difficult of children's genetic diseases. I may also take you to the Peabody Hotel to see the ducks march in to the Stars and Stripes Forever. This is a city to put on your must-visit list.</p>						
Beginners Tai Chi	Potter	Mon, 7/8/19	4	10:00 AM	12:00 PM	\$20.00
<p>This class will focus on the Yang style short forms of Tai Chi, including the 8, 16, and 24. It is recommended for new students, as well as those who are still learning the short forms.</p>						
Scammunition: How to Protect Yourself from Con Artists	Pallamary	Thu, 7/11/19	1	10:00 AM	12:00 PM	\$5.00
<p>We have all heard about fake news, but what about fake family members who call in the middle of the night claiming to be in jeopardy. You are on the Do Not Call List, so why are you still getting annoying calls? What is a Tech Support Scam and how does a stranger know I have Window? Learn some scam prevention tips and acquire a new set of self-defense skills. Learn how to be scam-free in all aspects of your life.</p>						
	Sherwood	Wed,	1	10:00	12:00	\$5.00

Taoist Mahjongg for Beginners		7/17/19		AM	PM	
This course will be an overview one the easiest versions of Chinese Mahjongg. This Fall a four week series will follow for interested students to learn how to play Mahjongg without a card needed for American Mahjongg. There are no confusing or intricate directions. You just create your own 14 tile mahjong using pairs, runs, and other combinations. No previous experience is expected. It is creative, fun, and challenging!						
A Stroll Down Memory Lane	Pallamary	Thu, 7/18/19	1	10:00 AM	12:00 PM	\$5.00
Remember Uncle Miltie, Bob Hope and the USO Shows? How about Uncle Don's radio show, WOR in New York? Who could forget the wicked laughter of The Shadow when he asked enthralled listeners: who knows what evil lurks in the hearts of men? Stop in, reminisce, and share part of your life with others. We will stroll together and learn about each other.						
Outsmarting Yourself in Love, Sleep and Eliminating Phobias	Kelly	Wed, 7/24/19	2	10:00 AM	12:00 PM	\$10.00
Do you want to know about LOVE? What happens when you sleep- and dream? Do you want to know about conquering your phobias and how the body and mind relate? Dr. Evelyn Kelly, author of medical text books, will provide the results of brain research on each of these topics. Her insights will be supplemented with lectures from The Great Courses: Outsmart Yourself: Brain-Based Strategies to a Better You.						
Playing Games = a Valuable Activity for Seniors	Sherwood	Fri, 8/2/19	1	1:30 PM	3:30 PM	\$5.00
Remember when playing games in summer was an important time of your life? It still can be worth your time! Let us share a few games as we look at the intrinsic value of playing games as a problem solver-brain stimulator, memory booster and social skill enhancer. Favorite games such as Sequence, Rummikub- and Farkle games require reasoning skills and cognitive flexibility.						
The Skeptic's Guide to Health, Medicine and the Media 2	Putzeys	Mon, 8/5/19	4	10:00 AM	12:00 PM	\$20.00
See the description under The Skeptic's Guide to Health, Medicine and the Media 1.						
How Hope and Motivation Keep You Going	Lossada	Fri, 8/9/19	1	2:00 PM	4:00 PM	\$5.00
Research has shown the more engaged we are in life with friends, family or hobbies the better our brains function, we have a more positive outlook and tend to enjoy life more. This is true at any age, but is especially true for seniors. Join Dr. Mery Lossada, Psychiatrist, Neurologist and Chief Medical Officer at Hospice of Marion County as she discusses ways that help you maintain hope and motivation in living life to its fullest so you can feel better and live better.						
Mexican Train = a Domino Game	Sherwood	Fri, 8/16/19	1	1:30 PM	3:30 PM	\$5.00
Mexican Train will be relaxing as well as challenging. It is one of the most popular domino games enjoyed by adults. It also a game that can be shared when visiting with their older grandchildren. Social and cognitive benefits are part of game playing.						
Know Your Options for Palliative and Hospice Care	Lossada	Fri, 8/23/19	1	2:00 PM	4:00 PM	\$5.00
Join Dr. Mery Lossada, Psychiatrist, Neurologist and Chief Medical Officer at Hospice of Marion County as she discusses the different options you have in your healthcare, and especially in your hospice care. Learn about being an advocate for your own healthcare, your wishes, know your options and share your wishes for palliative and hospice care.						
How Can Your Body Help Others After Your Death	Toeppen-Spring	Tue, 8/27/19	1	1:30 PM	3:30 PM	\$5.00
Many are aware that body donation after death for anatomical study in medical schools can be an important contribution to the education of future physicians. New options have developed in the past 20 years for donation that expand the importance of this gift for the advancement of medical knowledge and techniques and for organ donation. Traditional and newer types of donations will be discussed and compared to help you decide if you would like to contribute after death. As always, advance planning helps.						
History and Geography						
TITLE	INSTRUCTOR	FIRST	WEEKS	STARTS	ENDS	FEE
The Rise of Modern China	Potter	Mon, 5/6/19	3	10:00 AM	12:00 PM	\$15.00
This class will cover the history and events that have contributed to the transformation of China from a third world country into a modern superpower in less than one century. Course materials from a variety of sources together with class discussions are intended to help us better understand current relations between the US and China, as well as China's growing influence and importance in						

international affairs. Beginning in 2014 the instructor taught English four years at a university in Shaoxing, China, which is located a few hours south of Shanghai.

Chautauqua...the place that never leaves you	Patterson	Mon, 5/6/19	1	1:30 PM	3:30 PM	\$5.00
-----------------------------------------------------	-----------	----------------	---	------------	------------	--------

This class will focus on the fascinating cultural history of Chautauqua, NY, an institution dedicated to education, art, recreation and religion. Annual summer seasons which began in 1874 reflect an ongoing tradition that is inspired by the best of American ideals. From its music to architecture to lecture topics, our class will hear the story of how Chautauqua's program of lifelong learning has developed its outreach since the first Chautauqua Assembly 145 years ago. We will focus on how Chautauqua has become firmly embedded in the story of great American achievements.

Latin American History	Kirk	Wed, 5/8/19	6	1:30 PM	3:30 PM	\$30.00
-------------------------------	------	----------------	---	------------	------------	---------

Join us as we explore the history of Latin America from the age of exploration to the modern world. We will look at the early explorers and the peoples they encountered, the way colonies were developed by the Spanish and Portuguese, independence movements and the rise of modern nations. Included will be a look at Central America and reasons for immigration to the United States, a phenomenon which has become so well publicized in recent years.

Remember Emmett!	Coyne	Mon, 5/13/19	1	1:30 PM	3:30 PM	\$5.00
-------------------------	-------	-----------------	---	------------	------------	--------

The murder of Emmett Till (1955) and his mother's fierce determination to have an open casket for the world to view how savagely he had been brutalized was a significant catalyst in galvanizing the Civil Rights movement. Did the Civil Rights movement and the subsequent civil rights legislation affectively make a difference against social discrimination?

Introduction to Herodotus and the Birth of History	Holloran	Thu, 5/16/19	3	10:00 AM	12:00 PM	\$15.00
-----------------------------------------------------------	----------	-----------------	---	-------------	-------------	---------

This course focuses on the birth of what we now call history and Herodotus, who is often called the Father of History. Lectures from one of The Great Courses by Elizabeth Vandiver provide the context in which Herodotus wrote his work titled: Histories. If there is sufficient interest, a future course can explore his work: Histories.

Great Tours Explore the History and Scenery of Scotland	Holloran	Mon, 6/3/19	2	1:30 PM	3:30 PM	\$10.00
----------------------------------------------------------------	----------	----------------	---	------------	------------	---------

This course draws on lectures by Professor Patrick Allitt in The Great Tours: England, Scotland, and Wales. These lectures will be supplemented with a variety of contemporary videos by various British media celebrities' exploration of Scotland by foot, car, boat and airplane. If there is sufficient interest subsequent courses will explore England, Wales and Ireland.

How to Systematically Collect and Document Your Life Story, Even if You Are Not Going to Write Your Memoir	Preston	Thu, 6/20/19	2	1:30 PM	3:30 PM	\$10.00
-------------------------------------------------------------------------------------------------------------------	---------	-----------------	---	------------	------------	---------

The process of creating a table of various aspects of your life is one way to start writing a memoir. But, even if you are not interested in writing a memoir, there is value in the process of systematically documenting where you and your family: lived, worked, went to school, vacationed, and many other important aspects of your life. In collecting this information, either from your memory, archives, family and even the Internet, you will be surprised by other memories that will surface. So, even if you never write your memoir, the collection of information will be of value to you and your family. This course will provide you tools to create this overview of your life to date.

Ancient America, First Peoples and Eastern North America	Hautanen	Thu, 7/25/19	6	10:00 AM	12:00 PM	\$30.00
-----------------------------------------------------------------	----------	-----------------	---	-------------	-------------	---------

A broad look at the first peoples to migrate to North America, and the civilizations that arose in eastern North America up to first contact with Europeans of the De Soto expedition. We will utilize The Great Courses lecture series Ancient Civilizations of North America by Edwin Barnhart, the same professor we have seen in previous courses on Mesoamerica and South America.

Literature and Language

TITLE	INSTRUCTOR	FIRST	WEEKS	STARTS	ENDS	FEE
The Other Side of English 1	Preston	Tue, 5/7/19	2	1:30 PM	3:30 PM	\$10.00

There are many ways in which our beautiful English language can be maligned. In this course we will have fun with words and learn to identify the names experts created for some of them. We will have fun with words using pangram or holoalphabetic sentences, logomisia, oxymorons, malapropisms, redundant acronym syndrome, CRAS syndrome, double extendre, syntactic expletives, logolrogy, and taboo language. We will conclude with the 13 longest words in the English language. Should be a lot of fun if you are curious about these odd ways our language can be used. You may have not heard of these terms, but you may have come across examples of them.

Spanish for Seniors	Scheppers	Tue, 5/21/19	5	1:30 PM	3:30 PM	\$25.00
<p>In response to popular request, this course is being continued for new students and previous students to carry on with their Spanish adventure. If you think age or lack of experience means learning a new language is impossible, this is the class for you! Senior Learners Inc., presents courses that require no prior knowledge, so they are perfect for beginners. There is no memorization required, and there are no exams or grades to cause you stress, just a welcoming environment and a wonderful opportunity to learn something new and exciting. Senior Spanish employs a whole language learning approach designed to be fun and relaxing. In each lesson we will learn a series of short phrases by practicing them together until we feel comfortable with them and we know what they all mean. Then we will use them to have mini-conversations and to play games. We will also watch short videos from well-known television shows and movies to hunt for the phrases we learned and present cultural topics for discussion. We will also discuss topics such as how learning a little Spanish can improve brain health, improve general communication skills, improve understanding of yourself and others, and more.</p>						
Introduction to the Great Books 1	Coleman	Tue, 6/4/19	4	10:00 AM	12:00 PM	\$20.00
<p>In this course we will be reading (at home) and discussing (in class) four works of literature (both fiction and non-fiction) in the book: Introduction to Great Books 1 First Series. Subsequent courses in this series will include four more works in each course. The readings for this course (including number of pages in each) are: Why War, Freud (10), The Melian Dialogue, Thucydides (10), The Social Me, James (2), Rothchild's Fiddle, Chekhov (12). New copies are available from GreatBooks.org, for \$16.95, plus tax and shipping. Used copies are less from Amazon and eBay. It is not necessary to commit to take the other two courses in the series. Please read Why War before the first class.</p>						
Human Language and Linguistics	Holloran	Thu, 6/6/19	4	10:00 AM	12:00 PM	\$20.00
<p>Linguistics is the science of language. Professor John McWhorter of Columbia University is one of The Great Courses most prolific instructors. He has five separate courses with a total of 154 lectures on various aspects of linguistics, the history of language and the more than 7,000 languages around the world. This course will draw on his lectures that describe the systematic way the structures of languages are studied and compared. These studies organize the 7,000 languages into families of related languages that evolved from common roots.</p>						
The Other Side of English 2	Preston	Wed, 6/19/19	2	1:30 PM	3:30 PM	\$10.00
<p>See the course description of The Other Side of English 1.</p>						
Introduction to the Great Books 2	Coleman	Tue, 7/9/19	4	10:00 AM	12:00 PM	\$20.00
<p>In this course we will be reading (at home) and discussing (in class) four works of literature (both fiction and non-fiction) in the book: Introduction to Great Books 1 First Series. The readings for this course (including number of pages in each) are: Concerning the Division of Labor, Smith (5), Chellkash, Gorky (40), How an Aristocracy May be Created by Industry, Tocqueville (5) and Observation an Experiment, Bernard (6). New copies of this book are available from GreatBooks.org, for \$16.95, plus tax and shipping. Used copies are less from Amazon and eBay. It is not necessary to take either of the other two courses in the series. Please read Concerning the Division of Labor before the first class. The final course in this series will include four more works.</p>						
French for Seniors	Scheppers	Tue, 7/9/19	6	1:30 PM	3:30 PM	\$30.00
<p>If you think age or lack of experience means learning a new language is impossible, this is the class for you! Senior Learners Inc., presents courses that require no prior knowledge, so they are perfect for beginners. There is no memorization required, and there are no exams or grades to cause you stress, just a welcoming environment and a wonderful opportunity to learn something new and exciting. Senior French employs a whole language learning approach designed to be fun and relaxing. In each lesson we will learn a series of short phrases by practicing them together until we feel comfortable with them and we know what they all mean. Then we will use them to have mini-conversations and to play games. We will also watch short videos from well-known television shows and movies to hunt for the phrases we learned and present cultural topics for discussion. We will also discuss topics such as how learning a little French can improve brain health, improve general communication skills, improve understanding of yourself and others, and more.</p>						
Introduction to the Great Books 3	Coleman	Tue, 8/6/19	4	10:00 AM	12:00 PM	\$20.00
<p>In this course we will be reading (at home) and discussing (in class) four works of literature (both fiction and non-fiction) in the book: Introduction to Great Books 1 First Series. This is the last course in this series of three courses. The readings for this course (including number of pages in each) are: Everything That Rises Must Converge, O'Connor (19), An Essay in Aesthetics, Fry (8), An Outpost of Progress, Conrad (30), On Studying, Ortega y Gasset (13). The book title is: Introduction to Great Books 1 First Series. New copies are available from GreatBooks.org, for \$16.95, plus tax and shipping. Used copies are less from Amazon and eBay. It is not necessary to take either of the other two courses in the series. Please read Everything That Rises Must Converge before the first class.</p>						

Science and Technology

TITLE	INSTRUCTOR	FIRST	WEEKS	STARTS	ENDS	FEE
What Darwin Didn't Know: The Modern Science of Evolution	Pealer	Tue, 5/7/19	4	10:00 AM	12:00 PM	\$20.00
<p>This is a new Great Courses Program and here is its description: "Retrace Darwin's path to his theory of evolution by natural selection, which appeared in his masterpiece The Origin of Species, published in 1859. Encounter collector Alfred Russel Wallace's astonishing, almost identical, key insight. Detail the types of evidence, not known to Darwin, that have accumulated in the century and a half since his time, deepening and extending his ideas to a remarkable degree." Genetics is the major understanding that has developed significantly from Darwin's day so it is the basis for many of the lectures – how our knowledge has changed and how it impacts many areas that help support our present day understanding of Evolution. Other resources will be used to extend ideas described in the Great Course.</p>						
Tech Notes	Davis	Mon, 5/20/19	1	1:30 PM	3:30 PM	\$5.00
<p>Are you a Mac, iPad or iPhone, or Apple Watch user? Do you need help with a problem? Do you want to learn new things about technology and the internet? Tech Notes workshops will provide you with useful tips, hardware and software recommendations, helpful advice, and teach you about getting more from your computers and devices. During each 2-hour session you will have ample time to ask questions and discuss problems. Topics will change each month so you will never know exactly what to expect! Bring your laptop or mobile device with you if you can.</p>						
Using Apple Pages to Create Documents, Flyers, and eBooks	Davis	Tue, 6/25/19	1	1:30 PM	3:30 PM	\$5.00
<p>This workshop will explore the basic features of the Pages program. Pages is the Apple word processing program that is powerful, yet easy to use. Topics will include working with text, adding and manipulating images, working with simple tables, and sharing documents with others. We will be creating sample documents, flyers, and eBooks during class.</p>						
Using Digital Organizers as a Personal Knowledge Library	Davis	Wed, 7/10/19	1	1:30 PM	3:30 PM	\$5.00
<p>Most of us are constantly collecting bits and pieces of information that we find interesting and useful. We find something useful and file it in our brain, or maybe write it on a piece of paper and put it in a stack with all the other bits of useful knowledge. Then, three weeks, or three months later we need this bit of knowledge, but we not only cannot remember it but cannot even find the piece of paper. There is a better way. Start creating your own Personal Knowledge Library (PKL). A PKL can become your long-term memory assistant. You might even call it your personal Wikipedia (or a personal Encyclopedia Britannica). This workshop will help you get started building your PKL, what software to use, provide organizing tips, and suggest things to include. You will be given templates for user guides and equipment manuals, trip planning, and an inventory of all your digital assets.</p>						
Tech Clinic: Using Your Android Phone and Tablet Devices	Hautanen	Wed, 7/10/19	1	10:00 AM	12:00 PM	\$5.00
<p>This course will describe and demonstrate the basic physical features of Android phones and tablets, as well as settings and commonly used apps. We will also go over use of the user interface and the different screens. We will also discuss security, use of the app store, and managing your apps in general for good performance without unnecessarily draining your battery or going over your data limit.</p>						
Introduction To Computer Programming	Hautanen	Wed, 7/17/19	6	1:30 PM	3:30 PM	\$30.00
<p>Learn the basics of computer programming using a computer language called Python, which is even used to teach grade school children to program. The course uses lectures from The Great Courses, plus other material. Students can choose to write and run programs on their own computers as part of the course, but it is not required. The instructor will assist students who wish to do so.</p>						
Tech Clinic: Using Your Windows 10 Computer	Hautanen	Mon, 7/29/19	1	1:30 PM	3:30 PM	\$5.00
<p>This course will include a short review of the basic features of a Windows 10 computer, with additional discussion of more topics such as security and virus protection, and new features like virtual desktops. We will also discuss common productivity apps such as word processors and spreadsheets, and pros and cons of using free versions of those versus using Microsoft Office.</p>						
What Einstein Got Wrong, That Is, He Could Not Accept	Holloran	Fri, 8/2/19	4	10:00 AM	12:00 PM	\$20.00
<p>Albert Einstein was the most prolific physicists since Isaac Newton. This course explores the implications of the theories he spawned. For example, his explanation of the photo-electric effect provided the seed from which Quantum Mechanics sprouted. But, he remained skeptical of the implications of this theory to the end of his life. Even his extreme skepticism resulted in the refinement of this theory. The lectures are by Professor Dan Hopper in his The Great Courses: What Einstein Got Wrong.</p>						
Tech Notes	Davis	Mon,	1	1:30	3:30	\$5.00

8/5/19

PM PM

Are you a Mac, iPad or iPhone, or Apple Watch user? Do you need help with a problem? Do you want to learn new things about technology and the internet? Tech Notes workshops will provide you with useful tips, hardware and software recommendations, helpful advice, and teach you about getting more from your computers and devices. During each 2-hour session, you will have ample time to ask questions and discuss problems. Topics will change each month so you will never know exactly what to expect! Bring your laptop or mobile device with you if you can.

Origins of Life

Holloran Wed, 4 10:00 12:00 \$20.00
8/7/19 AM PM

All life on the Earth is based on DNA, which means that all life present today evolved from one organism. But, one of the biggest mysteries of science is how did this first living organism get started on the Earth? This course will be drawn from a variety of recent online sources, including lectures by Professor Robert Hazen from his 2005 The Great Courses: Origins of Life. The main focus will be on what we know and what we do not yet know about this ultimate mystery of mysteries.

Special Event

TITLE	INSTRUCTOR	FIRST	WEEKS	STARTS	ENDS	FEE
Ice Cream Social and Everything You Wanted to Know About Ice Cream and Ice Cream Memorabilia	Phillips	Tue, 8/20/19	1	1:30 PM	3:30 PM	\$5.00

Jim Phillips has the largest collection of ice cream memorabilia in the state. He will bring some of it for us to view and learn more about his hobby. We will have plenty of ice cream and topics to enjoy. What could be more fun at the dog days of August than an Ice Cream Social with your Senior Learner friends?

FREE Fall Term Kickoff Party and SLI Annual Meeting	Pealer	Fri, 8/30/19	1	1:30 PM	3:30 PM	\$0.00
------------------------------------------------------------	--------	--------------	---	---------	---------	--------

This special event will serve as the Senior Learners, Inc., Annual Meeting of its members. Members, current students and prospective students will have an opportunity to learn more about the Fall Term courses from the instructors. As with all of our parties, come for the fun, socializing and goodies.

the Arts

TITLE	INSTRUCTOR	FIRST	WEEKS	STARTS	ENDS	FEE
Introductory Watercolors	Craggs	Wed, 5/8/19	6	10:00 AM	12:00 PM	\$30.00

We will work on basic watercolor skills. This will include the use of color and basic brush techniques. The lessons will be organized progressively, so that the students will produce finished paintings of simple still life subjects. Instructor will provide the materials.

For Love of Film: Comedies	Smith	Mon, 6/17/19	5	1:00 PM	4:00 PM	\$25.00
-----------------------------------	-------	--------------	---	---------	---------	---------

Join us in viewing and discussing some favorite comedies: The Russians Are Coming, The Russians Are Coming starring Alan Arkin, Carl Reiner and Eva Marie Saint, City Slickers starring Billy Crystal and Jack Palance, L.A. Story starring Steve Martin, Victoria Tenant and Sarah Jessica Parker, I.Q. starring Meg Ryan, Tim Robbins and Walter Matthau, and The Freshman starring Marlon Brando and Matthew Broderick. Popcorn will be served to enhance the viewing experience.

The Men Behind the Music	Satterfield	Thu, 7/11/19	4	1:30 PM	3:30 PM	\$20.00
---------------------------------	-------------	--------------	---	---------	---------	---------

The Men Behind the Music explores the lives and styles of some of the greatest composers from the Renaissance, Baroque, Classical, Romantic, and Modern eras. Participants will learn what drove these men to produce their masterworks. Much emphasis will be placed on music listening.

The Art of Drawing with Acrylic Paint:	Thomas	Thu, 8/8/19	4	1:00 PM	3:00 PM	\$20.00
-----------------------------------------------	--------	-------------	---	---------	---------	---------

This four-week introduction to Acrylic Paint, explores the step-by-step fundamental techniques to develop your skills in color mixing, painting transparent and opaque washes, applying strokes to create texture, and applying flat color tones with acrylic paints. Participants should have some basic experience painting with other wet mediums, but it is not necessary (oils, watercolor, markers, or watercolor brushes and ink...). The class instructions will address basic application processes for mixing color to create a color wheel, plus tints and shades of color, and develop compositions in color. Additional information will be emailed to you when you register, or upon request to info@SeniorLearners.org.

For Love of Film: The Art of Animation	Smith	Mon, 8/12/19	3	1:00 PM	4:00 PM	\$15.00
-----------------------------------------------	-------	--------------	---	---------	---------	---------

Join us in viewing and discussing some favorite animation films directed by Brad Bird of Disney Pixar fame: The Iron Giant about a giant robot who is befriended by a child, Ratatouille about a gourmet chef and The Incredibles 2, a female driven superhero animated

film. Popcorn will be served to enhance the viewing experience.

For Love of Film: Filmed in Ocala

Smith Wed, 1 1:00 4:00 \$5.00
8/28/19 PM PM

It's the Old Army Game is a 1926 silent film starring W. C. Fields that was filmed in Ocala. Join us in viewing and discussing this film. See if you can identify current and long-gone Ocala landmarks. We will also talk about other films that were filmed in and around Ocala. Popcorn will be provided to enhance our viewing experience.

NOTE: The views of our instructors and students are their own and do not necessarily represent the views of Senior Learners, Inc. This position is also true for videos, handouts, and other instructional materials used in our courses, and for events that we may sponsor in conjunction with other non-profit organizations.

All classes are in Central Florida Community College's University Center (Building 20) Room 112. Parking passes are required. Obtain them from your instructors.
